True blue praise FOR OUR AUTO GATES

"I got in contact with Regala due to a break in on my property, we where running 2x4.8m gate out the front of the place with chain and padlock, it only took the crooks 2 seconds to get into the place with a 18volt grinder. We now have one 8mLx1.8mH gate out the front of the property and one 4.5mLx 1.5mH gate for the driveway up to the house both supplied and built by Regala which will definitely slow them down if they try it again.

There's no beating around the bush with these blokes, there straight to the point and listen to what you're wanting like adding in extra features we wanted and answering the multiple questions I had about the gates.

If you're looking for good solid cantilever electric solar gate for your farm that looks good, are not flimsy and doesn't look like you're arriving at your final set of gates the pearly gates of heaven then get onto the team at Regala."

– Namarbuka

"Another great product supplied mate these gates are fantastic and so easy to install. Very much worth their money."

– Anthony

"Absolutely stoked with our gates! Thanks again team - absolute legends!"

– Bec

"I couldn't be happier with the whole experience from start to finish was amazing."

– Steve

"Great Gates, Great Service."
